Regulation Station

Ages 7-10

Does your child struggle with regulating their emotions, flexibility of thought or problem solving? This group focuses on self regulation using all 8 body senses. Interoception is one of our senses that gives information about how our body is feeling at any given moment. "Am I hot, cold, tired, hungry, relaxed, or tense?" Through exploring our internal body signals and external senses, the group will work towards improving awareness allowing your child to choose tools and strategies to help stay regulated during everyday activities! Weekly home programming will be provided. Child: Adult ratio of 3:1. Cost \$415.
